Formative Assignment_1: Step-by-Step Guide

> This guide is an execution plan. It does not complete or submit the assignment. Review your work before you upload it.

Assignment Record

Item	Classroom record
Course	BDES_SU_64_Designing_Meaningful_Experiences
Section	Fall 26 | FYS | Skill Up | Maitree Dedhia
Account visible	Sherika Thadhani (sherika.thadhani.bdes2026@atlasskilltech.university)
Audit date	2026-10-15
Teacher	Maitree Dedhia
Exact title	Formative Assignment_1
Status / submission state	Missing; Your work has no attached submission visible; “Add or create” and “Mark as done” are available.
Due date/time	Due Aug 4, 2:29 PM
Audited due-day label	Tuesday, Aug 4
Points	100 points
Posted / assigned date	Jul 29
Edited date	Jul 29
Classroom link	Open the exact Formative Assignment_1 page

> No due year is shown. Topic, earned grade, class comments, teacher/private comments, and attachments/links/forms/files are not shown in the audited record.

Required by Classroom

The in-class activity follows the class exploration of what defines an experience, happy versus sad experiences, and the connection between products and experiences.

- **Refine:** Review your written notes comparing products versus experiences. Make necessary edits or additions based on the class discussion.
- Include **a clear example for each**: one for products and one for experiences.
- **Capture:** Take a legible photo of the updated written work.
- **Submit:** Upload the image file to the Classroom assignment.
- **File name format:** `StudentName_FA1`
- **File size limit:** Maximum 10 MB.

Preparation and Materials

Required by Classroom

- ☐ Written notes that compare products and experiences
- ☐ A device that can take a legible photo
- ☐ An image file to upload
- ☐ Access to the Classroom assignment

Suggested workflow

> The items below are suggestions, not additional Classroom requirements.

- ☐ Use the class-discussion notes or reminders available to you.
- ☐ Work in good light and place the page on a flat surface before taking the photo.
- ☐ Check that your device can show the image file size.

Step-by-Step Execution Plan

1. Open and review your written work

- ☐ Read your existing comparison of products versus experiences from beginning to end.
- ☐ Identify any part that needs an edit or addition based on the class discussion.
- ☐ Record the parts you plan to revise:

My planned edits or additions: _____

_____

2. Refine the comparison

- ☐ Make the necessary edits or additions to the written notes.
- ☐ Check that the updated work clearly compares products and experiences.
- ☐ Do not remove relevant work unless that change supports your revised comparison.

3. Add and check both examples

- ☐ Include a clear example for products.

My product example: _____

- ☐ Include a clear example for experiences.

My experience example: _____

- ☐ Check that each example is clearly connected to the matching part of the comparison.

4. Review the updated written work

- ☐ Read the completed notes again before taking the photo.
- ☐ Confirm that the comparison is understandable.
- ☐ Confirm that the product example is clear.
- ☐ Confirm that the experience example is clear.
- ☐ Confirm that the edits or additions reflect the class discussion.

5. Capture the work

- ☐ Take a photo of the updated written work.
- ☐ Open the captured image and check that the full work is visible and legible.
- ☐ Retake the photo if any required writing is cut off, blurred, too dark, or otherwise hard to read.

6. Name and check the image file

- ☐ Use the required format: `StudentName_FA1.`
- ☐ Replace `StudentName` with your student name.

My final file name: _____`FA1`

- ☐ Keep the image file at or below the required maximum of 10 MB.
- ☐ Do not assume a required image extension; none is shown in the Classroom instructions.

7. Review before uploading

- ☐ Open the final image one more time.
- ☐ Confirm that it shows the updated written work and is legible.

- ☐ Confirm the file name follows `StudentName_FA1`.
- ☐ Confirm the file size is no more than 10 MB.

8. Upload in Classroom

- ☐ Open the exact Classroom assignment page.
- ☐ Use the available Classroom attachment control to add the final image file.
- ☐ Check that the intended image appears as the attached submission before taking any final Classroom action.

> The source record shows “Add or create” and “Mark as done,” but no attached submission is visible. This guide does not perform either action or submit anything.

Quality Checks Tied to the Visible Criteria

Visible criterion	Quality check
Review and refine the written notes	The notes have been reread, and necessary edits or additions based on the class discussion have been made.
Compare products versus experiences	The updated writing clearly compares both.
Include a clear example for each	One clear product example and one clear experience example are present.
Capture a legible photo	All required writing is visible, in focus, and readable in the final image.
File name format	The file name follows `StudentName_FA1`.
Maximum file size	The final image is 10 MB or smaller.
Upload the image file	The intended image is visibly attached on the assignment page.

Final Pre-Submission Checklist

- ☐ My written notes compare products and experiences.
- ☐ I made necessary edits or additions based on the class discussion.
- ☐ I included one clear example for products.
- ☐ I included one clear example for experiences.
- ☐ I reviewed the work before uploading.
- ☐ The photo is complete and legible.
- ☐ The file name follows `StudentName_FA1`.
- ☐ The image file is no more than 10 MB.
- ☐ I opened the exact Classroom assignment page.
- ☐ I verified that the correct image is attached.
- ☐ I will review the attachment and Classroom state before taking the final submission action.

> This guide does not upload, mark as done, or submit the assignment. The student must review the work and attachment before completing the Classroom submission process.
